

Datasheet for

Benoslip MX

Description:

Benoslip MX is a cold resistant chemical release agent, which causes no discolouration of the concrete. Furthermore it contains additional protection against corrosion.

Usage:

Benoslip MX can be used as a release agent for precast-, slab- and curb production.
Can be used on all types of moulds, such as steel/metallic, wood and plastic.
As an protective oil on ready-mix trucks.
It can be applied universally.

Advantages:

Benoslip MX is cold resistant.
Benoslip MX causes no discolouration of the concrete.
Benoslip MX leaves a smooth surface.
Benoslip MX is an all-round oil.

Usage:

Benoslip MX should be applied with spraying equipment. The best result is achieved by applying a thin uniform layer. Potential surplus Benoslip MX is wiped off with a cloth.
Bear in mind that over-dosage causes a reduction of release ability.
The range is 50 – 80 g/m², though depending on the mould's absorption and method of applying.

Limitations:

May not be mixed with other products.

Physical properties:

Appearance :	colourless liquid
Odour :	aliphatic scent
Freezing point:	-15°C
pH :	non-relevant
Boiling point:	-
Flash point :	>98°C
Density :	0,84 g/ml
Water dissol. :	non dissolvable
