

Bencon A/S presents the unique cleaning product for concrete- and construction industry – Total Clean.

Total Clean is a formulation, among others, of a powerful, organic molecule which is found in sugar beets and canes. It penetrates and dissolves concrete as well as mortar and residue.

- Is quick and efficient on i.e. concrete trucks, ready-mix trucks block paving machinery, moulding equipment, forklifters, tools
- Can be used with no problem on; aluminium, steel, plastic, glass fibre, glass, rubber and painted steel surfaces.
- Contains no in-organic acid.
- Easy bio-degradable (90% in 7 days).
- Ready for use – needs no dilution.
- The best result is achieved when applied with a foamer.
